

David Higgins

Profile

A full stack developer with 3 years experience and passion for frontend web technologies and utilizing them to make performant web applications. Graduated with an honours degree in Electronic and Computer Engineering from the National University of Ireland, Galway in 2016.

Work Experience

April 2015 - September 2015 **Technology Consultant**
Deloitte, Dublin
Co-op

Worked in an agile environment with the Digital Team on the MyWelfare.ie site writing HTML, CSS, JavaScript and C#. Created unit and automation tests using Selenium and NUnit, participated in daily standups and scrum meetings.

September 2016 - September 2018 **Technology Consultant**
Deloitte, Dublin
Analyst

Developed a Dashboard for internal use showing current usage of the site using AngularJs, ASP.Net and indexed views on a SQL Server. During my last year, I worked on the development team that lead the development of a custom Umbraco CMS using es6, LESS and HTML and a redesign of the site.

Volunteering

June 2016 **Olive Branch for Children**
Mbeya, Tanzania

Developed an Android application, written in JavaScript. Using Apache Cordova used it to deploy the app to the phones. The app helped local business owners record their sales and expenses during the day and calculated their profit at the end of the day.
